### Key

Point #	Location	Description
1	58.4398, -134.6468	Confluence with Montana Creek
2	58.4394, -134.6471	Trap location and CMP outlet

On 8-5-10 I tracked this small tributary and placed one minnow trap near the culvert outlet where the tributary crosses Montana Creek rd. I trapped 2 coho (80mm) and 2 Dolly Varden (90mm), the trap was set for 3 hours. The culvert appears to provide fish passage, but upstream of the culvert the water level was too low to set minnow traps.
